* Tank mix for pre-emergence use only.

KEY

Translocated = translocated mode of action

Contact = contact mode of action

Grass = selectively controls grasses

Broadleaf = selectively controls broadleaf weeds

Sedge = selectively controls sedges

Aqua = aquatic use also

Non-crop = primarily non-crop/site preparation use

Add surf. = additional surfactant required

Tank mix = may tank mix with other herbicides

Reseed site = can reseed site after weed foliage dies
