Cover Crops in the Garden

HYG-5814-Table 1

Grass Cover Crops	Legumes	Brassicas
Build organic matter and soil tilth through their abundant root systems.	Add nitrogen to the soil for next year's crop.	Fight soil compaction, especially the larger radish varieties.
<ul style="list-style-type: none">• barley• cereal rye• oats• wheat	<ul style="list-style-type: none">• clovers• peas• beans	<ul style="list-style-type: none">• mustards• radish• turnip
