

ENT-0095

# Annual Bluegrass Weevil

ENT-0095-Table 1-Insecticides used for control of ABW, targeting adults (Ad) and larval stages (L1 = first instar; L3 = third instar; L5 = fifth instar) in preventive or curative methods.

IRAC Code	Product	Active Ingredient	Target Stage	Method
<b><i>Organophosphate</i></b>				
1B	Dursban 50W	chlorpyrifos	Ad	preventive
1B	Dylox	trichlorfon	L3-5	curative
<b><i>Pyrethroid</i></b>				
3A	Scimitar GC	lambda-cyhalothrin	Ad	preventive
3A	Talstar P	bifenthrin	Ad	preventive
3A	DeltaGard G	deltamethrin	Ad	preventive
3A	Tempo Ultra	β-cyfluthrin	Ad	preventive
<b><i>Neonicotinoid</i></b>				
4A	Arena	clothianidin	L1-3	preventive
<b><i>Spinosad</i></b>				
5	MatchPoint	spinosyn	L3-5	curative
<b><i>Insect growth regulator</i></b>				
15	Suprado	novaluron	L1-5, egg	curative
<b><i>Oxadiazine</i></b>				
22	Provaunt	indoxacarb	L3-5, Ad*	curative
<b><i>Anthranilic diamide</i></b>				
28	Ference	cyantraniliprole	L1-5	curative

## Annual Bluegrass Weevil

ENT-0095-Table 1-Insecticides used for control of ABW, targeting adults (Ad) and larval stages (L1 = first instar; L3 = third instar; L5 = fifth instar) in preventive or curative methods.

IRAC Code	Product	Active Ingredient	Target Stage	Method
<b><i>Anthranilic diamide (cont.)</i></b>				
28	Tetrino	tetraniliprole	L1-5	curative
<b><i>Combination products</i></b>				
3A+4A	Allectus	bifenthrin + imidacloprid	L1-3, Ad	preventive
3A+4A	Aloft	bifenthrin + clothianidin	L1-3, Ad	preventive
3A+4A	Triple Crown	bifenthrin + imidacloprid+zeta-cypermethrin	L1-3, Ad	preventive
